PROFESSIONAL SUMMARY

Second Year **Computer Science** student at York University with a **strong foundation** in **object-oriented programming** and **data structures** and **algorithms**. Experienced in developing, **testing**, and **debugging** applications using **Java**, **Python**, and **JavaScript**. **Motivated, detail-oriented**, and eager to deepen theoretical understanding and contribute to academic research.

AREAS OF EXPERTISE

✓ Unit-Testing	✓ Java, Python, JavaScript	✓ Debugging	✓ Cloud Development
✓ Object-Oriented Programming (OOP)	✓ Git / Version Control	✓ SQL & Databases	✓ Documentation

EDUCATION

Computer Science for Software Development

Expected Graduation May 2028

York University, Markham, Ontario

Relevant Courses:

Data Structures and Algorithms: Implemented core data structures and applied algorithmic problem-solving techniques.

Object Oriented Programming: Applied object-oriented design principles in group-based programming projects.

AWARDS & FUNDING

Ontario Scholar	2024
York University Continuing Student Scholarship	2025

PROJECTS

Project Lead and Software Developer

Simple Chess Engine | <https://github.com/TheOnlyAmirFarahani/ChessEngine>

*Developed a simple yet strong chess engine using **Java**.*

- Designed the **system architecture** following **object-oriented design principles**.
- Developed **Unit Tests** to assess and **optimize** the chess engine.
- Wrote and **maintained accurate documentation** of the code base.

Software Developer

Python Password Manager | <https://github.com/TheAmirFarahani/Password-Manager>

*Built a password manager based on **Python** and **SQLite** to securely save account information in a database and efficiently access it.*

- Applied **Object Oriented Programming** principles to design and implement a password management system.
- Used knowledge of **data structures** and **algorithms** to implement **efficient CRUD** methods.
- Used **SQL** to efficiently store user data in a **database**.

Full Stack Developer

Aperta Academia | <https://apertaacademia.pythonanywhere.com/>

*Built a simple web forum using **Python** and the **Django** web framework.*

- Designed and implemented front-end interfaces using **HTML**, **CSS**, and **JavaScript**, ensuring responsive interactions.
- Deployed the application to the **cloud** using **PythonAnywhere**.

VOLUNTEER/LEADERSHIP CONTRIBUTIONS

Student Leader

2025

York University

Markham, Ontario

Volunteered as a student leader to represent the Computer Science program at various university events, supporting prospective and incoming students.

- Represented the Computer Science Program to prospective students and families during an open house event, answered questions about the program and shared student experience to support informed decision making.
- Participated as a panelist for first year students, offering advice on academic success, time management, and campus resources.
- Demonstrated **strong interpersonal communication** and public speaking skills.
